

# Fluency in English; It is Easy!!

Consider the following points while speaking

1: Confidence is the key, do not be afraid of making mistakes. You are Number ONE.

---

2: Make a regular study plan.

---

3: Do not read much grammar.

---

4: Try to listen to songs and watch movies or documentaries.

---

5: Try to mimic what you hear. It will help improve your pronunciation.

---

6: Try to learn words in context; it will make them more comfortable while using them.

---

7: Always look for the more straightforward and common synonym of the words, do not make the speaking harder for yourself.

---

8: If you are a beginner, try to start watching or listening with Canadian or American accent as most of us (Asian) are exposed to these accents from an early age through songs, movies, games... (My personal Experience).
